## A WEALTHY STATE.

A Paradise for People who Desire to Escape Taxation.

Editor Journal:—The United States census for 1890 makes Nevada the wealthiest State per capita of any State in the Union, and is nearly four times the general average. To be exact the average for the whole United States is \$1,039 per capita, and the average for Nevada is \$4,000 per capita. This State is also a paradise for people who do not like to pay taxes for, according to this valuable census, property in this State is only assessed at one-seventh of its real value. Another good showing made by this census is that Nevada has about the smallest real estate value of any State in the Union and only amounts to four and one-half per cent of the value of the real estate. The bondholders have failed to get in their work on Nevada, and a mortgage is almost unknown. After the census report is read there ought to be a large emigration from States that are smothered with mortgages. The Nevada Board of Trade should scatter this census broadcast over the land. It would induce everybody who wishes to escape the assessor to locate here. Every citizen of Nevada should procure a copy of the valuable census and enjoy to his utmost capacity the good news. The United States Census officials are to be congratulated on the very able and accurate manner in which they have compiled Nevada Statistics. It is presumed that the Assessors of Nevada will send a valuable present to the Census Department as a mark of esteem for the very able manner in which they appraised the property of Nevada at its true value.

FARMER.

The military editorial writer of the Carson New challenges the Silver State to publish anything Mr. Bartine "ever wrote or uttered which indicates that in his judgment the tariff is of greater importance than the financial issue." Doubtless the writer did not read Mr. Bartine's labored effort in an evening contemporary in answer to the strictures of Mr. Wren, in which Mr. Bartine sneeringly said that if we have to have a new party for silver then there should, with as much reason, be a sugar party, a wool party, etc. This would seemingly put the silver question on or about the same plane in Mr. Bartine's estimation as the tariff on sugar or wool.—Journal.

It is continuous effort that pays in advertising as in everything else. A business man doesn't keep his store open one day in the week, or one week in the month, or three months in the year. If he advertises that way that is the impression people will get. It is continuousness that has made each letter in the word "Royal" before the words "Baking Powder" worth over \$2,000,000. The owner of Royal Baking Powder recently refused \$12,000,000 for his business—a business built up and fostered by persistent advertising.

In the Heath murder trial at Fresno yesterday, Mrs. Cora Palmer who is on her death-bed from consumption, testified that she saw two men driving away from the scene of the murder. Some burning cloth was thrown out from the buggy, which she extinguished and secured. A partly consumed handkerchief bore the name R. S. Heath. Heath almost fainted during the hearing of the evidence.

During the Pollard-Breckenridge trial a request was made by the attorney that ladies should not be permitted to appear in the courtroom while the testimony of Miss Pollard was being taken. When Breckenridge was put on the stand, a woman attorney got up and demanded that the men should be excluded from the courtroom.

Crittendon, the evangelist, is drawing crowded houses at Odd Fellows' Hall. He is doing noble work, as the Christianity he preaches is material help to the poor, needy and unfortunate. He practices what he preaches.
